February 27, 1944.
Irma Times:
Dear Sirs—Arrangements have been made with the Department of Extension to have hogs shipped from Wainwright and surrounding ditricts shown in pro-

of Extension to have hogs shipped from Wainwright and surrounding ditricts shown in processed form at Wainwright on Tueday, March 14th, in the Elite Theatre, Wainwright.

A grader will be on hand to explain the grading of bacon as it is done today, and also a speaker will have information on care and feeding and common diseases of pigs. This should prove educational and instructive to all producers who have made such a wonderful effort to supply the required food for the nation.

The bacon show is sponsored by the Department of Agriculture and the Co-operative Shipping Association. Yours very truly,

C. R. GREER.

War-time THRIFTY Borrowing

For example...

TO PAY TAXES PROMPTLY

War-time taxes are necessarily so heavy as to be a financial problem for every Canadian. It is advisable to save money to pay taxes promptly, but if through unforeseen circumstances you find yourself without sufficient cash to meet them when due, a bank loan is probably the best solution to your problem. A loan may actually save money for you by enabling you to avoid penalties for overdue taxes.

Our policy in making personal loans is to help Canadian wage-and-salary-earners, professional men and women and business executives to keep financially fit. We therefore make such loans—at very low rates and on easy terms of payment. Do not hesitate to talk over your needs in confidence with the manager of our branch in your own locality.

The cost is low, and the terms are fa. Only \$3.65 for a \$100 loan repayable in 12 monthly instalments; smaller and larger loans at proportionate cost.

RED CROSS

The Need Grows as Victory Nears

Food Production

PROBLEMS OF AGRICULTURE now, and in the post-war period, are of great interest at this time. Lord de la Warr, chairman of the Agricultural Research Council of Great Britain, toured Canada recently, and was present at the eighth annual meeting of the Canadian Federation of Agriculture, held in Quebec city. During his visit to this country, Lord de la Warr addressed a number of public gatherings, and he expressed the opinion that farmers have it in their power to bring about the lasting peace and the state of plenty which are among the things for which the United Nations are fighting. If, however, agriculture is to be encouraged to bring its potential production capacity to the maximum, he believes that farmers must be guaranteed fair and steady prices and that conditions of world trade must be improved.

Many Measures Commons by the Advisory Committee on Post-Are Suggested War Reconstruction contained an interesting section dealing with the future of agriculture. This part of the report was prepared by a sub-committee under the chairman-ship of Mr. Donald G. McKenzie of Winnipeg, Chief Commissioner of the Board of Grain Commissioners. It emphasized, as did Lord de la Warthe need for improvement in world trade conditions, and for measures which will assure financial security for farmers. It also pointed out the value of co-peration in agriculture. Other measures recommended included: classification of farm lands by means of soil surveys; increased cultural and recreational facilities in rural areas; the encouragement of research to find

CANADA APPROVED BREAD LACKS SUFFICIENT RIBOFLAVIN

cal Association Journal by Alma T.
Owens, B.Sc.H.E., and E. W. McHenry, M.A., Ph.D., F.R.S.C., of the
School of Hygiene, University of

Toronto.

The scientists used 16 rats for each type of bread, and the bread was purchased retail from a delivery truck of a large Toronto bakery, without the knowledge of the bakery. The rats, of the young albino variety, were also fed protein, fat, and carbohydrates in a proportion fairly close to that found in human dietaries in Canada.

to that found in human dictaries in Canada.
Significant differences in the weights of the three groups of rats were noted on the 21st day of the experiment. It was concluded that the whole wheat bread supplied four important vitamins in sufficient quantities. 'Canada Approved' white bread furshed nearly sufficient quantities of three vitamins but was deficient in one—ribodavin; whereas ordinary white bread was deficient in all four vitamins. The scientists acknowledged that there might be wide variation in the composition of bread, and said that similar experiments on a number of samples would be advantageous.

The experiment was helpfed by a grant from the Rockefeller Foundation's Division of Natural Sciences.

A favorite drink of underweight Europeans is ginger ale and milk, mixed half and half.

classification of farm lands by means of soil surveys; increased cultural and recreational facilities in rural areas; the encouragement of research to find new uses for farm products, and a farm housing plan.

Problems Is Now

The suggestions mentioned above are only a few of those contained in the report, which few of those contained in the report, which tems of rural credit, and dealt with many aspects of foreign and domestic marketing problems. Findings of, the United Nations Relief and Rehabilitation Administration showed clearly the importance of food production in restoring the world to peace and order, and Canada, as a great agricultural country, will be able to contribute much towards this essential undertaking. It is apparent, however, that many problems will arise and it is to be hoped that they will be worked out wisely, and that a proper balance may be established between the demand for food, and agricultural production. In the past, failure to establish this balance has been the cause of many of the world's difficulties, but now that the problem is fully realized, means may be found for solving it successfully.

Boys Well-Trained

Are Ready At Sixteen For German Front Line Service

Front Line Service

In a report published in the Stockholm paper Attontidningen regarding
German sixteen-year-old boys in service at the front, this paper says
that their training with the Hitler
Jugend is so thorough that they require only one month's further training before they can be used for
front line service. About one hundred
thousand boys of ten to thirteen
years of age will shortly be trained
for. intelligence service.

It a feeding experiment on white rats, in which the bread given the animals was the only source of B vitamins, it was found that "Can-ada Approved" white bread was more valuable than ordinary white bread and that whole wheat bread was markedly superior to either of the other two types.

A report of the experiment has been published in the Canadian Medical Association Journal by Alma T. Bobby Leach, who successfully rode over Ningara Falls in a barrel, later slipped on an orange peel and broke his neck.

OUR COMPLETE SHORT STORY **Cup Of Gold**

on the peon's: "Buenos noches, Senor."

He put his nearly empty wallet under the pillow. As he removed his shirt his hand brushed the mantelpiece, tipping a chalice-like cup, spilling its contents. With amazement he saw gold coins rolling across the hardwood floor, clattering in all directions. One of them continued to spin under the bed. Groping for it, he prayed that no one heard. Maybe the old gent was setting him up for a cover, as in the manager's case. No, he decided, it was the way the cards were falling. This time he'd have the game as well: These Mexicans—leaving gold lying around so carelessly. They didn't know what to do with it. Well, he knew what to do with it all right. It was a shame he had to rob such a nice guy, but this gold meant certain escape for him.

"I said good-bye to Constipation!"

"Oh, rancher, amigo—help me—" he croaked.
Clawing at feet, hugging legs, he looked up into the eyes of the haciendado he'd robbed!
"Water, Senor! Here is your gold—take it. For God's sake forgive

—take it. For God's sake forgive me!"
"You do not need forgiveness, Senor. It is the custom of our people to leave a cup of gold in the guest room for wayfarers to help themselves on their journey. The gold is yours, amigo, for the taking . . but, Senor! You left your wallet here. . . Juan went after you to return it.

Names Successor

According to Stockholm reports, which may be taken as well-informed, Hitler recently held a Berchtesgaden conference at which he indicated Martin Bormann as his nominee for the Fuehrership in case anything happened to himself. Whether this is a hint that Hitler contemplates hara-kirl, which he has frequently stated would be his resort in extremity, anybody is at liberty to guess. His selected triumvirate, in the event of his own demise, consists of Bormann, as Number Obe, with Goering and Himmler.

Bormann's reputation is a sinister

with Goering and Himmler.

Bormann's reputation is a sinister
one. He is reputed, by those who
know about him, the most ruthless
Nasi of them all. His present task is
disciplining Germany's dangerous
home-front garrison of millions of
conscripted foreign workers. These
are said to total over twelve millions,
and they have been showing signs of are said to total over twelve millions, and they have been showing signs of restiveness. Bormann's plans for handling them are as drastic as his reputation suggests. He is 44, an athelst, and is described as "a chunky little man with this black hair." He will indubitably look his beet on a collection.

this week undergoing an operation on his head in an effort to clear up his eye trouble.

The Red Cross drive for funds is now on. Give generously when approached by a collector may receive a blood transfusion that will save his life, and our boys who are prisoners of war will be sent food parcels to help keep them alive until they can return home.

Mr. A. E. Blakely received word last week of the death of his mother, Mrs. George Blakley, at an Owen Sound hospital. Mrs. Blakley, who was 83 years and four months of age, died from a severe heart attack.

Mrs. Isabell McDougall left last week for Wetaskiwin, where We received a report this week that Robt. Stone, who has been visiting his brother this winter has joined the Veteran Guard and is stationed at Moose Jaw.

Sam Stead has been home from eastern station on a week's

last week for Wetaskiwin, where she will make her home.

W. I. MEETING

W. J. Leonard Willis, of Vancoure, B.C., home from overseas after completing his tour of operations over enemy territory, visited Mr. and Mrs. R. H. Ott last Saturday on his way home to Vancouver, W.O. Willis was a gunner on a bombing plane and a close friend of the late Phil Stuart, Mrs. Ott's brother all the way through, and were in the same the same hut. His plane was shot down while on a raid over enemy territory, but he baled out and eventuall ymade is way back to England safely. He obtained particulars of, Phi Stuart's death which he was able to give Mrs. Stuart and other members of the family. Mr. Willis will probably re-muster and take further training.

house or lunch hostess find they cannot act, it is up to them to get someone else to take their place. Mrs. Murray gave an address on Women's Institute members, place in this war world and the world after the war. There are ten ditty bags on hand. Let's fill them for the sail-ace Christians.

Peter Kozak has been accepted

hand. Let's fill them for the sail-ors Christmas.

Anyone wishing a bag may get one from the secretary.

At the close of the meeting Mrs.

R Larson and Mrs. T. Thurston served a delicious lunch. as a recruit for the Canadian one Navy, and will be reporting for duty shortly.

Kinsella Kernels

ual St. Patrick's dance by the Kinsella Wored by th The second annual convention of the Alberta Farmers' Union has passed into history. The organization is still very young, but has made its influence felt. It came into being as a protest organization against the almost intolerable conditions under which agriculture had been suffering for a number of years.

which agriculture had been suf-fering for a number of years, It has demanded fundamental reforms, and because of this has attracted a large body of for-wardlooking farmers who realize that fundamental reforms are needed, and that nothing else will be sufficient.

needed, and that nothing else will be sufficient.

If the organization is to continue to be successful it will be necessary to continue to advocate the fundamental reforms which are necessary to make of farming itself a dignified remunerative occupation.

Farmers have been fighting along with others during the war to make secure the homes of all freedom loving people. With victory won, and this result withmour grasp, it should be un-

in our grasp, it should be un-thinkable that because of debt,

thinkable that because of debt, (which had its origin in low prices and the interest system), some farmers should then lose their homes. The National Conscience needs to be awake against such a possible betrayal. And its the duty of the A.F.U. to see that this conscience is kept awake. We would at this time urge all our members to give generously to the Red Cross.

BANKING IS ADAPTABLE

...it changes constantly to meet this country's changing needs

FOR INSTANCE ...

Ever wonder where your ration coupons go? The answer is that your grocer takes your sugar, butter and other coupons to his bank, which acts as the government's agent in identifying and accounting for millions of spent coupons. This vast bookkeeping job-known as "Ration Coupon Banking"-is just one of the new, additional assignments which the banks have assumed as part of their wartime service.

Another is the payment, on behalf of the government, of certain subsidies arising out of wartime price control. Still another is the handling of exchange transactions as agents of the Foreign Exchange Control Board.

At the same time the banks have arranged facilities to serve military establishments and new warindustry centres alike.

Through loans to industry and agriculture, they have helped to increase the supply of raw materials, weapons and food.

They have acted as issuing agents for approximately \$5,700,-000,000 worth of Victory Bonds and War Savings Certificates, as well as lending direct financial aid to the government through short term loans.

... All this in the face of widespread staff changes resulting from enlistments of 8,360 trained bank employees.

The war emergency has proved the readiness and ability of Canada's banks to adapt their services to new conditions. It has proved, once again, the strength of your banking system, which is providing a firm base of financial service for the greatest economic effort in the nation's history, and will with equal resourcefulness meet the challenge of the years ahead.

The annual St. Patrick's danes sponsored by the Kinsella Wormer's Institute will be held a Wednesday. March 15th. Door prizes will also held the words of the woollen blanket. Proceeds to be used for th

WE ARE PROUD of our youthful outlook, so Young Canada is one of our liveliest concerns.

is one of our liveliest concerns.

For years we have studied young folk—making definite plans for their care. We know how young ideas are created—how they change—how they grow. You can see that fresh, eager knowledge reflected in the things we have to sell—in the newest comforts for bables—in our capable school togs—in the practical comfort of our work and play clothes.

Mother knows, too, that shopping by mail from EATON'S big colorful Catalogue is easy because it can be done right at home, and the name "EATON'S" assures her of getting best value for her money, and the widest choice that the market affords and the government requiaffords and the government regu-lations' allow.
